1. JORDAN SERVICES MODERNISATION PROGRAMME

1.1 BACKGROUND

The overall objective is to assist Jordan to fully benefit from the opportunities originated by the liberalisation of trade in services in the context of WTO and GATS and the economic objectives of the Euro Mediterranean Partnership and the Association Agreement.

All the above are fully in line with the policy that the Government of Jordan is implementing since year 1999 – 2000. Jordan has reinforced its commitment following the entry into force of the EU Jordan Action Plan in 2005 and ENP in 2007. The action Plan explicitly mentions the need to ‘gradually abolish restrictions on supply of services and to develop the Jordanian financial services’.

Jordan represents one of the most services dominated economy of all the Mediterranean countries. Since December 2000, Jordan is a participant in the WTO General Agreement on trade in Services and part of the first Mediterranean partners having officially opened the negotiations on the liberalisation of services. The contribution of the services sector to GDP is around 67%. The liberalisation in the services industry will give access to the EU services market and enable Jordan to benefit from the EU services technology, best practices and investment. This process is only at its beginning phase. A fully liberalised services sector better face the challenges arising from the globalisation; moreover, it is less constrained by large capital outlays and it is promising, within a limited time frame, both strong expansion and modernisation.

1.2 OBJECTIVES OF THE PROGRAMME AND PRIORITY ISSUES

Description of the objectives and priorities of the programme covered by this call for proposals. Note: the number of priorities should be small (say, three); objectives and priorities should give an indication as to which kind of activities one would have to propose in order to be eligible.

The **global objective** of this programme is the development of the services sector of the Hashemite Kingdom of Jordan and its internationalisation. Trade barriers on services are being removed and as a result of modern communication, distance is becoming less and less of a problem. Services sector companies could target specific international markets, plan and determine the activities and the actions necessary to present their products (e.g at international trade fairs, congresses, symposia or exhibitions) in order to increase their internationalisation capacities. The grant can be applied for by both the operating and starting exporter. The increase of international business can lead to increased turnover and return and could allow for additional recruitment potential.

The programme is divided into various components among them the funding of a Call for Proposals for various actions as following:

Scheme 1: development of export facilities of Jordanian Services companies

Scheme 2: support to export development for Jordanian Services companies

Scheme 3: support to joint activities, to Business Associations, to Federation for the development of export activities , which include studies, marketing research, market analysis etc.

Scheme 4: support in the certification process (ISO, CE; etc.)

Scheme 5: services enterprises start-ups and reinforcements.

The **specific objective(s)** of the planned Call for Proposals are:

This Call for Proposals refers to the SCHEME 4 only and will focus on the support the Jordanian Services companies in getting the required certifications in order to better position themselves in the market. The main objective is to support the applicants companies in getting the certification they deem to be necessary in order to improve their services, and to be better positioned in the market.

1.3 FINANCIAL ALLOCATION PROVIDED BY THE CONTRACTING AUTHORITY

The overall indicative amount made available under this scheme 4 call for proposals is between EUR 0.25M and EUR 0.5M. The Contracting Authority reserves the right not to award all available funds.

In the case where the minimum percentage foreseen for a specific scheme cannot be used due to insufficient quality or number of proposals received, the Contracting Authority reserves the right to reallocate the remaining funds to another scheme.

Size of grants

Any grant awarded under this Call for Proposals must not exceed EUR 25.000.

Jordan Enterprise maximum contribution:

The Contracting Authority (JE) maximum contribution will be 90% of the total eligible cost for companies outside Amman or women owned businesses; the balance must be financed from the applicant's or partners' own resources;

The Contracting Authority (JE) maximum contribution will be 80% of the total eligible cost for companies inside Amman and not women owned businesses; the balance must be financed from the applicant's or partners' own resources;

Provided that the applicant should only apply for 60% of equipments costs in his action budget (Annex III) the percentage should be indicated alongside the description of the item

2. RULES FOR THIS CALL FOR PROPOSALS

These guidelines set out the rules for the submission, selection and implementation of actions financed under this Call, in conformity with the provisions of the Practical Guide to contract procedures for EC external actions, which is applicable to the present call (available on the JE website at this address: <http://www.jedco.gov.jo>).

2.1 ELIGIBILITY CRITERIA

There are three sets of eligibility criteria, relating to:

- applicant(s) which may request a grant (2.1.1);

- types of cost which may be taken into account in setting the amount of the grant (2.1.4).

If the applicant has already signed a contract with the Contracting Authority, instead of the legal entity sheet and its supporting documents the legal entity number may be provided, unless a change in its legal status occurred in the meantime.
- A financial identification form conforming to the model attached at Annex D of these Guidelines, certified by the bank to which the payments will be made. This bank must be located in the country where the applicant is registered.

Such documents must be in **English** or accompanied by a **translation into English**.

(2) Potential applicants may not participate in calls for proposals or be awarded grants if they are in any of the situations which are listed in Section 2.3.3 of the Practical Guide to contract procedures for EC external actions (available from the following Internet address: http://ec.europa.eu/europeaid/work/procedures/implementation/index_en.htm);

In section V of the grant application form (“Declaration by the applicant”), applicants must declare that they do not fall into any of these situations.

2.1.2 *Partnerships and eligibility of partners*

Scheme 4 is for individual entities only.

The following are not partners and do not have to sign the “partnership statement”:

- Associates

Other organisations may be involved in the action. Such associates play a real role in the action but may not receive funding from the grant with the exception of per diem or travel costs. Associates do not have to meet the eligibility criteria referred to in section 2.1.1. The associates have to be mentioned in Part B section IV - “Associates of the Applicant participating in the Action” of the Grant Application Form.

- Sub granting is not allowed
- Subcontractors

The grant beneficiaries have the possibility to award contracts to subcontractors. Subcontractors are neither partners nor associates, and are subject to the procurement rules set out in Annex IV to the standard grant contract and according to the JE-FWC (Frame Work Contract) for services related activities and the utilisation of the simplified forms made available by JE for supplies related activities.

The applicant will act as the lead organisation and, if selected, as the contracting party (the Beneficiary)

2.1.3 *Eligible actions: actions for which an application may be made*

Definition: An action (or project) is composed of a set of activities.

Duration

The planned duration of an action may not be lower than **1 month** nor exceed **12 months**.

Sectors or themes

This scheme 4 call for proposal addresses all types of service companies and/or associations, in all sectors related to services, that is all the companies providing services to businesses as well as final consumers. The focus is on people who interact with other people, serving the customer rather than transforming physical goods.

Grants under this scheme 4 support the applicants companies and/or associations in getting the certification they deem to be necessary in order to ameliorate their services, products and to be better positioned in the market, including, for instance, the increase of the productivity, sales, export volume, etc.

Location

Actions must mainly take place in the Hashemite Kingdom of Jordan. Very specific actions (e.g. specialised trainings) may take place in the country/ies where the center(s) which issue(s) the specific certificate(s) may hold courses necessary to obtain and maintain the certificate(s).

Types of action

All related actions to obtaining certification.

The following types of action are ineligible:

- actions concerned only or mainly with individual sponsorships for participation in workshops, seminars, conferences, congresses;
- actions concerned only or mainly with individual scholarships for studies or training courses;

Number of applications and grants per applicant

- An applicant may submit more than one proposal under the same Call for Proposals.
- An applicant may submit contemporaneous proposals to more than one Scheme Call for Proposals.
- An applicant may not be awarded more than one grant under the same Call for Proposals during the same calendar year

2.1.4 Eligibility of costs: costs which may be taken into consideration for the grant

Only "eligible costs" can be taken into account for a grant. The categories of costs considered as eligible and non-eligible are indicated below. The budget is both a cost estimate and a ceiling for "eligible costs". Note that the eligible costs must be based on real costs based on supporting documents (except for subsistence costs and indirect costs where flat-rate funding applies).

- Salaries of new staff
- Travel(s), local travel(s) and per diem of applicant 's staff,
- Membership fee, if required to get the certification
- Training courses
- Inspection/auditing related costs
- All other relevant costs related to the Action.

Recommendations to award a grant are always subject to the condition that the checking process which precedes the signing of the contract does not reveal problems requiring changes to the budget (for instance arithmetical errors, inaccuracies or unrealistic costs and other ineligible costs). The checks may give rise to requests for clarification and may lead the Contracting Authority to impose modifications or reductions to address such mistakes or inaccuracies. The amount of the grant and the percentage of co-financing as a result of these corrections may not be increased.

It is therefore in the applicant's interest to provide a **realistic and cost-effective budget**.

Eligible direct costs

To be eligible under the Call for Proposals, costs must comply with the provisions of article 14 of the General Conditions to the Standard Grant Contract (see Annex E of the Guidelines).

Contingency reserve

A contingency reserve not exceeding 5% of the direct eligible costs may be included in the Budget of the Action. It can only be used with the **prior written authorisation** of the Contracting Authority.

Eligible indirect costs (overheads)

The indirect costs incurred in carrying out the action may be eligible for flat-rate funding fixed at not more than 7% of the total eligible direct costs.

If the applicant is in receipt of an operating grant financed from the Community budget no indirect costs may be claimed within the proposed budget for the action.

Contributions in kind

Contributions in kind are not considered actual expenditure and are not eligible costs. The contributions in kind may not be treated as co-financing by the Beneficiary.

Ineligible costs

The following costs are not eligible:

- Salaries of Board members and CEO / Directors and existing staff assigned to the Action
- Any costs incurred prior to signature of the Grant contract
- Any costs incurred after the end of the implementation period
- Taxes, including VAT, unless the Beneficiary (or the Beneficiary's partners) cannot reclaim them and the applicable regulations do not forbid coverage of taxes;
- debts and provisions for losses or debts;
- interest owed;
- items already financed in other EC and/or JE programmes;
- purchases of land or buildings, except where necessary for the direct implementation of the action, in which case ownership must be transferred to the final beneficiaries and/or local partners, at the latest by the end of the action;
- currency exchange losses.

2.3 EVALUATION AND SELECTION OF APPLICATIONS

Applications will be examined and evaluated by the Contracting Authority with the possible assistance of external assessors. All actions submitted by applicants will be assessed according to the following steps and criteria:

If the examination of the application reveals that the proposed action does not meet the eligibility criteria stated in paragraph 2.1.3, the application shall be rejected on this sole basis.

(1) STEP 1: EVALUATION OF THE APPLICATION FORM

OPENING SESSION AND ADMINISTRATIVE CHECK OF THE APPLICATION FORM

The following will be assessed:

- The submission deadline has been respected. If the deadline has not been respected the application will automatically be rejected.
- The application form satisfies all the criteria specified in points 1-10 of the Checklist (Section II of the grant application form). If any of the requested information is missing or is incorrect, the application may be rejected on that sole basis and the application will not be evaluated further.

Following the opening session and the administrative check, the Contracting Authority will send a letter to all applicants, indicating whether their application was submitted prior to the deadline, and whether their application has been recommended for further evaluation.

(2) STEP 2: EVALUATION OF THE CONCEPT NOTE

The evaluation of the Concept Notes that have passed the first administrative check will cover the relevance of the action, its merits and effectiveness, its viability and sustainability. **The Contracting Authority reserves the right not to undertake the evaluation of the Concept Notes whenever considered justified** (for example when a less than expected number of applications are received) **and to go straight to the evaluation of the corresponding full applications**

Please note that the scores awarded to the Concept Note are completely separate from those given to the Full Application.

The Concept Note will be given an overall score out of 50 points in accordance with the breakdown provided in the Evaluation Grid below. The evaluation shall also verify the compliance with instructions provided in the guidance for Concept Note, part A of the grant application form.

The evaluation criteria are divided into headings and subheadings. Each subheading will be given a score between 1 and 5 in accordance with the following assessment categories: 1 = very poor; 2 = poor; 3 = adequate; 4 = good; 5 = very good.

	Scores	
1. Relevance of the action	Sub-score	15
1.1 Relevance of the action needs and constraints of the country/region to be addressed in general, and to those of the target groups and final beneficiaries in particular.	5	
1.2 Relevance to the priorities and objectives mentioned in the Guidelines.	5(x2)*	
2. Effectiveness and Feasibility of the action	Sub-score	25
2.1 Assessment of the problem identification and analysis.	5	
2.2 Assessment of the proposed activities (practicality and consistency in relation to the objectives, purpose and expected results).	5(x2)*	
2.3 Assessment of the role and involvement of all stakeholders and, if applicable, proposed partners.	5(x2)*	
3. Sustainability of the action	Sub-score	10
3.1 Assessment of the identification of the main assumptions and risks, before the start up and throughout the implementation period.	5	
3.2 Assessment of the identification of long-term sustainable impact on the target groups and final beneficiaries.	5	
TOTAL SCORE		50

*the scores are multiplied by 2 because of their importance

Once all Concept Notes have been assessed, a list will be established with the proposed actions ranked according to their total score.

Firstly, only the Concept Notes which have been given a score of a minimum of 12 points in the category "Relevance" as well as a minimum total score of 30 points will be considered for pre-selection.

Secondly, the list of Concept Notes will be reduced in accordance to the ranking to those whose sum of requested contributions amounts to at least twice the available budget for this Call for proposals. The Evaluation Committee will subsequently proceed with the applicants whose proposals have been pre-selected.

(3) STEP 3: EVALUATION OF THE FULL APPLICATION

An evaluation of the quality of the applications, including the proposed budget, and of the capacity of the applicant will be carried out in accordance with the evaluation criteria set out in the Evaluation Grid included below.

There are two types of evaluation criteria: selection and award criteria.

The selection criteria are intended to help evaluate the applicants' financial and operational capacity to ensure that they:

- have stable and sufficient sources of finance to maintain their activity throughout the period during which the action is being carried out and, where appropriate, to participate in its funding;
- have the management capacity, professional competencies and qualifications required to successfully complete the proposed action. This also applies to any partners of the applicant.

The award criteria allow the quality of the applications submitted to be evaluated in relation to the set objectives and priorities, and grants to be awarded to actions which maximise the overall effectiveness of the call for proposals. They enable the selection of applications which the Contracting Authority can be confident will comply with its objectives and priorities and guarantee the visibility of the European Union financing (see http://ec.europa.eu/europeaid/work/visibility/index_en.htm). They cover such aspects as the relevance of the action, its consistency with the objectives of the call for proposals, quality, expected impact, sustainability and cost-effectiveness.

Scoring:

The evaluation criteria are divided into sections and subsections. Each subsection will be given a score between 1 and 5 in accordance with the following guidelines: 1 = very poor; 2 = poor; 3 = adequate; 4 = good; 5 = very good.

2.3 How clearly defined and strategically chosen are those involved (final beneficiaries, target groups)? Have their needs been clearly defined and does the proposal address them appropriately?	5 x 2
3. Methodology	25
3.1 Are the activities proposed appropriate, practical, and consistent with the objectives and expected results?	5

4. Sustainability	15
4.1 Is the action likely to have a tangible impact on its target groups?	5
4.2 Is the proposal likely to have multiplier effects ? (including scope for replication and extension of the outcome of the action and dissemination of information.)	5
4.3 Are the expected results of the proposed action sustainable : - financially (<i>how will the activities be financed after the funding ends?</i>) - institutionally (<i>will structures allowing the activities to continue be in place at the end of the action? Will there be local "ownership" of the results of the action?</i>) - at policy level (where applicable) (<i>what will be the structural impact of the action — e.g. will it lead to improved legislation, codes of conduct, methods, etc?</i>)? - environmentally (if applicable) (<i>will the action have a negative/positive environmental impact?</i>)	5
5. Budget and cost-effectiveness	15
5.1 is the ratio between the estimated costs and the expected results satisfactory?	5

If the total average score is less than 12 points for section 1, the application will be rejected.

Note on Section 2: Relevance:

If the total average score is less than 20 points for section 2, the application will be rejected.

Provisional selection

Relevance and a minimum total score of 70% will be provisionally selected

Note: The scores awarded in this phase are completely separate from those given to the concept note of the same application.

(2) STEP 4 VERIFICATION OF ELIGIBILITY OF THE APPLICANT

The eligibility verification, based on the supporting documents requested by the Contracting Authority (see section 2.4) will only be performed for the applications that have been provisionally selected according to their score and within the available financial envelope.

- The Declaration by the applicant (Section III the grant application form) will be cross-checked with the supporting documents provided by the applicant. Any missing supporting document or any

incoherence between the Declaration by the applicant and the supporting documents may lead to the rejection of the application on that sole basis.

- The eligibility of the applicant and the action will be verified according to the criteria set out in sections 2.1.1 and 2.1.3.

Following the above analysis and if necessary, any rejected application will be replaced by the next best placed application in the reserve list that falls within the available financial envelope, which will then be examined for the eligibility of its applicant.
